Microsoft Learn Student Ambassadors - NUML | Pakistan

Dec 2023 - Present

Internship (React.js & Next.js Track)

Bytewise Limited | Pakistan

Jun 2024 - Sep 2024

I had the opportunity to dive deep into modern web development practices, focusing on React.js and Next.js. I developed proficiency in building interactive and responsive user interfaces using React. Throughout this experience, I worked on various projects and gained insights into how scalable applications are built and deployed.

Intern

CodSoft

Mar 2024 - Mar 2024

During my internship, I created user interfaces using HTML, CSS, and JavaScript that performed basic functions enhancing the user's experience, fixed bugs in the code, and learned about UI/UX design principles.

Projects

Dev Journey Site

Used Material UI components to build this landing page on React Framework.

Aug 2024

Nexcent Site

This landing page is built using React and Bootstrap.

Aug 2024

Creatify

This full-stack website is made using Next.js, MongoDB and OAuth Configurations.
